

Annual/Wellness Appointments

Most insurance companies pay for an annual physical exam, also called a wellness appointment. Coverage for these appointments varies and is unique to your policy. It is your responsibility to call your insurance company to verify what they will cover for these exams.

Questions to ask your insurance company:

- How should my physician code this appointment?
- What can I discuss with my physician at this appointment?
- What types of lab testing will you cover at this appointment?
- Will you cover any other diagnostic testing such as an EKG, Chest X-ray, Echocardiogram, Mammograms, Bone Density or Ultrasounds?
